PILLARS OF THE QATAR NATIONAL VISION 2030

Economic Development
Development of a competitive and diversified economy capable of meeting the needs of, and securing a high standard of living for, all its people both for the present and for the future

Environmental Development
Management of the environment such that there is harmony between economic growth, social development and environmental protection

Social Development
Development of a just and caring society based on high moral standards, and capable of playing a significant role in global partnerships for development

Human Development
Development of all its people to enable them to sustain a prosperous society

CEO MESSAGE

Eng. Abdullah Al Sulaiti
Chief Executive Officer

Coming fresh off a successful 2019, this year began with a challenge unlike any we have faced in recent times – the novel coronavirus (COVID-19) pandemic. What started off as a localized viral outbreak has spread across international borders and is a crisis faced by countries across the globe today. With the virus spreading even here in Qatar, we would like to assure you that our topmost priority has always been, and continues to be, the safety, health, and wellbeing of our employees while ensuring continuity of our operations.

We have spared no effort in ensuring a safe workplace to protect the health of our workforce, by taking various measures to prevent the spread the virus and reduce risks to all our employees, contractors and visitors. Among others, we have heightened health protocols at all our site operations and onboard our vessels, ensured adequate supplies of essential medical equipment and disinfectants and raised awareness for practicing good personal hygiene and minimizing physical contact. As the COVID-19 virus spreads rapidly with greater human to human interaction, we have activated 'work from home' for most of our employees for over the past month. We are constantly monitoring the situation and are regularly updating and communicating with employees on the latest guidelines issued by the authorities and company.

While most of us are working in a secured indoor environment, it is imperative that we recognize the incredible efforts and sacrifice of our seafarers working onboard our vessels, who maintain the continuity of our global operations to deliver clean energy. As countries around the world implement stricter measures to contain the spread of the virus, it is without a doubt that seafarers remain critical in the continuation of essential supply deliveries to service the wider global community. Their dedication, commitment and resilience in these times is an inspiration to us all.

While we continue to cope with the unprecedented impact of this pandemic affecting all humanity, I would like to take this opportunity to highlight the value of health, safety and solidarity in the face of a global health crisis, to ensure that we get through these tough times together as one Nakilat family.

THE STRENGTH AND SPIRIT OF OUR TEAM IS CRUCIAL NOW MORE THAN EVER, AND I AM CONFIDENT THAT WE WILL GET THROUGH THIS TOGETHER TOWARDS A BRIGHTER TOMORROW.

NSQL CELEBRATES LTI-FREE YEAR IN 2019

Nakilat Shipping Qatar Limited (NSQL) achieved a milestone LTI-free year for 2019 across its fleet of 18 managed and operated vessels. Since establishment in 2012, NSQL has maintained an enviable safety track record and surpassed the industry average LTI rates.

This achievement is attributed to the success of the Incident and Injury Free (IIF) and InSPIRE campaigns across the fleet, which not only empowers individuals to take safety ownership but also encourages them to embody our core values throughout their daily operations.

FLEET OPERATIONAL ACHIEVEMENTS ✨

NSQL VESSELS MARKS 100th LNG DELIVERY

Two of Nakilat Q-FLex LNG carriers have marked their 100th LNG delivery milestone this year.

Al Ghashaniya commemorated her 100th LNG delivery at Himeji LNG terminal in Japan on 6th February 2020 while Al Kharaitiyat crossed the milestone recently in June 2020.

Both vessels are currently being managed by Nakilat Shipping Qatar Limited (NSQL).

LPG/C BU SIDRA DELIVERS FIRST CARGO TO HALIDA PORT

Nakilat owned and managed LPG carrier Bu Sidra has recently achieved a milestone with the delivery of its first cargo to the Haldia Port, a major LPG import terminal in India. The latter is one of 14 LPG receiving terminals in India, a country which has 12% of the global LPG import market share.

Chartered by Oriental Energy, LPG Bu Sidra achieved a LTI-free (lost time injury) record in 2019, and has maintained this track record since coming under NSQL management in 2012.

Nakilat's fleet of four very large gas carriers (VLGC) delivers to more than 30 terminals across the world, with 1,164,955 MT of gas shipped in 2019 alone.

SPEAKING ABOUT SUSTAINABILITY IN LNG SHIPPING AT QATAR MARITIME & LOGISTICS SUMMIT

Nakilat Joint Ventures Manager, Bader Al-Mulla, gave a presentation on 'Sustainability in LNG Shipping', during the inaugural Qatar Maritime & Logistics Summit. Nakilat was a proud Diamond Sponsor for the conference held in Doha between 18-19 February 2020.

During his session, Bader shared insights on the growing demand for LNG shipping and how the LNG industry is moving towards more sustainable operations. He highlighted Nakilat's various efforts at maintaining sustainable fleet operations, which includes engine and ballast water treatment system retrofits, usage of compliant fuel to reduce gas emissions and compliance with the latest IMO (International Maritime Organization) regulations.

In addition, Bader also participated in a lively panel discussion where he touched upon Nakilat's integrated maritime and logistics capabilities contributing towards the sustainable growth of Qatar's maritime industry.

Nakilat JV Manager Bader Al Mulla gave an insightful presentation on Sustainability in LNG shipping at the inaugural Qatar Maritime & Logistics Summit

EXPANDING OUR FLEET ✨

NAKILAT TAKES DELIVERY AND MANAGEMENT OF LNG CARRIER NEWBUILD

Nakilat has taken delivery of a newbuild LNG carrier, "Global Energy", which will be commercially and technically managed in-house from June 2020 onwards. Built by Daewoo Shipbuilding & Marine Engineering (DSME), this is the first of four LNG carrier newbuilds to be delivered to Global Shipping Co. Ltd., a joint venture of Nakilat (60%) and Maran Ventures Inc. (Maran Ventures) (40%).

LNG/C Global Energy

TYPE	Conventional
CAPACITY	173,400 CBM
PROPULSION	M-type, Electronically Controlled, Gas Injection (MEGI)
SHIP OWNER	Global Shipping Co. Ltd (Nakilat/Maran JV)
SHIP OPERATOR	Nakilat
SHIPBUILDER	DSME

” Nakilat’s Chief Executive Officer Eng. Abdullah Fadhalah Al Sulaiti, said:

We are committed to grow our fleet in a sustainable manner to meet the rising demand for clean energy transport globally. The addition of this technologically-advanced newbuild to our fleet not only gives us a competitive edge, but also allows us to provide additional capacity and flexibility to our customers, which is important in a dynamic marketplace.

”

Improved design features for greater energy efficiency

ME-GI engine allows flexible dual-fuel propulsion solution, with optimized power generation

Active boil-off rate (BOR) 0.045% with onboard Full Reliquefaction System (FRS) & hybrid Fuel Gas Supply Systems (FGSS)

Built-in Panama Canal crossing features

4 blades propeller with increased skewing angle for enhanced propeller efficiency

Reduced bulbous bow shape DSME Streamlined Bow (DSBow) & the most optimized hull form for its generation

NAKILAT COMMENCE SECOND PHASE OF FLEET MANAGEMENT TRANSITION

Nakilat has commenced the second phase of its fleet management transition from Shell International Trading and Shipping Company Limited ["Shell"], with Q-Max LNG carrier Al Mayeda and LNG carrier Al Kharaitiyat as the first two vessels transitioned as part of second phase of fleet management transition agreement.

The technical management of both vessels will be undertaken by Nakilat's in-house ship management arm, Nakilat Shipping Qatar Limited (NSQL). Upon completion of the second phase vessel transition from Shell and delivery of LNG carrier newbuilds, NSQL's managed fleet will comprise of 29 vessels (25 LNG and 4 LNG carriers).

6.7 MILLION TONNES

**65 QATARI LNG CARGOS
DELIVERED TO
UNITED KINGDOM IN 2019**

ENERGY

UK is the world's 8th largest importer of liquefied natural gas (LNG)

- In 2019, UK received 14 million tonnes (31.2 billion cbm) of LNG, which is more than double from previous year (6.1 million ton in 2018)
- 65 Qatari cargoes (6.7 million tonnes) have been delivered in 2019 and Qatar was the largest exporter to the nation

LNG TERMINALS NAKILAT VESSELS DELIVER TO

- There are 3 LNG terminals in UK, which are South Hook, Dragon and Isle of Grain
- A joint-venture between Qatar Petroleum, ExxonMobil and Total, the South Hook LNG terminal celebrated its 10th operating anniversary in 2019. It has been receiving LNG from the Qatargas-2 project since opening in 2009

ECONOMY

- The economy of the United Kingdom is highly developed and market orientated. It is the sixth-largest national economy in the world measured by nominal gross domestic product (GDP)
- It is known that the UK is one of the most globalized economies in the world, ranking the tenth-largest goods exporter in the world and the fifth-largest goods importer

GLOBAL HUB AGENCY OPERATIONS ❄️

NAC marks 1st year of global hub operations

Nakilat Agency Company (NAC) recently marked its first year offering global hub agency services from Ras Laffan Port, allowing customers to avail its services both in Qatar and at Ports and terminals abroad.

NAC is the first local shipping agency to setup a global hub office in Qatar and directly coordinate the overseas operations. Since 2019, NAC have been offering its customers this value-added partnership with reputable international shipping agencies. The global hub has since attended to more than 1,200 ports calls and canal transits overseas in addition to the local appointments.

It is noteworthy that NAC has upheld an excellent safety track record over the years, with zero LTIs in its 15-year operating history.

Shipping, Marine and Logistics support services

- Serving oil and gas companies since operations started in 2005
- Attendance at all ports and terminals in Qatar and globally through NAC hub
- One-stop-shop for shipping, marine and logistics support services

N-KOM CELEBRATES DELIVERY OF NFB PROJECT ❄️

Nakilat-Keppel Offshore & Marine (N-KOM) successfully delivered a major fabrication project for Qatargas' North Field Bravo (NFB) in February 2020. The contract involved the fabrication of a brand-new offshore living quarters and refurbishment of an existing platform for a Qatar Gas offshore complex in the North Field. A ceremony was held at the Erhama Bin Jaber Al Jalahma Shipyard to mark the sail-away of jacket and topside of the structure, attended by senior executives of Nakilat, N-KOM, Qatargas and the project's contractor, Rosetti Marine.

This is the second major fabrication project delivered by N-KOM, after completion of large-scale offshore structures fabricated for Qatar Petroleum's Bul Hanine Re-development project late last year. An estimated 5,000 metric tonnes (MT) of structures were fabricated by N-KOM as part of this project, comprising of jacket and piles, as well as a topside for the offshore platform. The new offshore platform will be able to accommodate an additional 90 persons on board, enabling it to meet the increasing operational demands. All structures were constructed on-site at the world-class Erhama Bin Jaber Al Jalahma Shipyard in Ras Laffan Industrial City.

- 1x Jacket
- 4 x Piles
- 1 x Accommodation platform (6 levels including Heldeck)

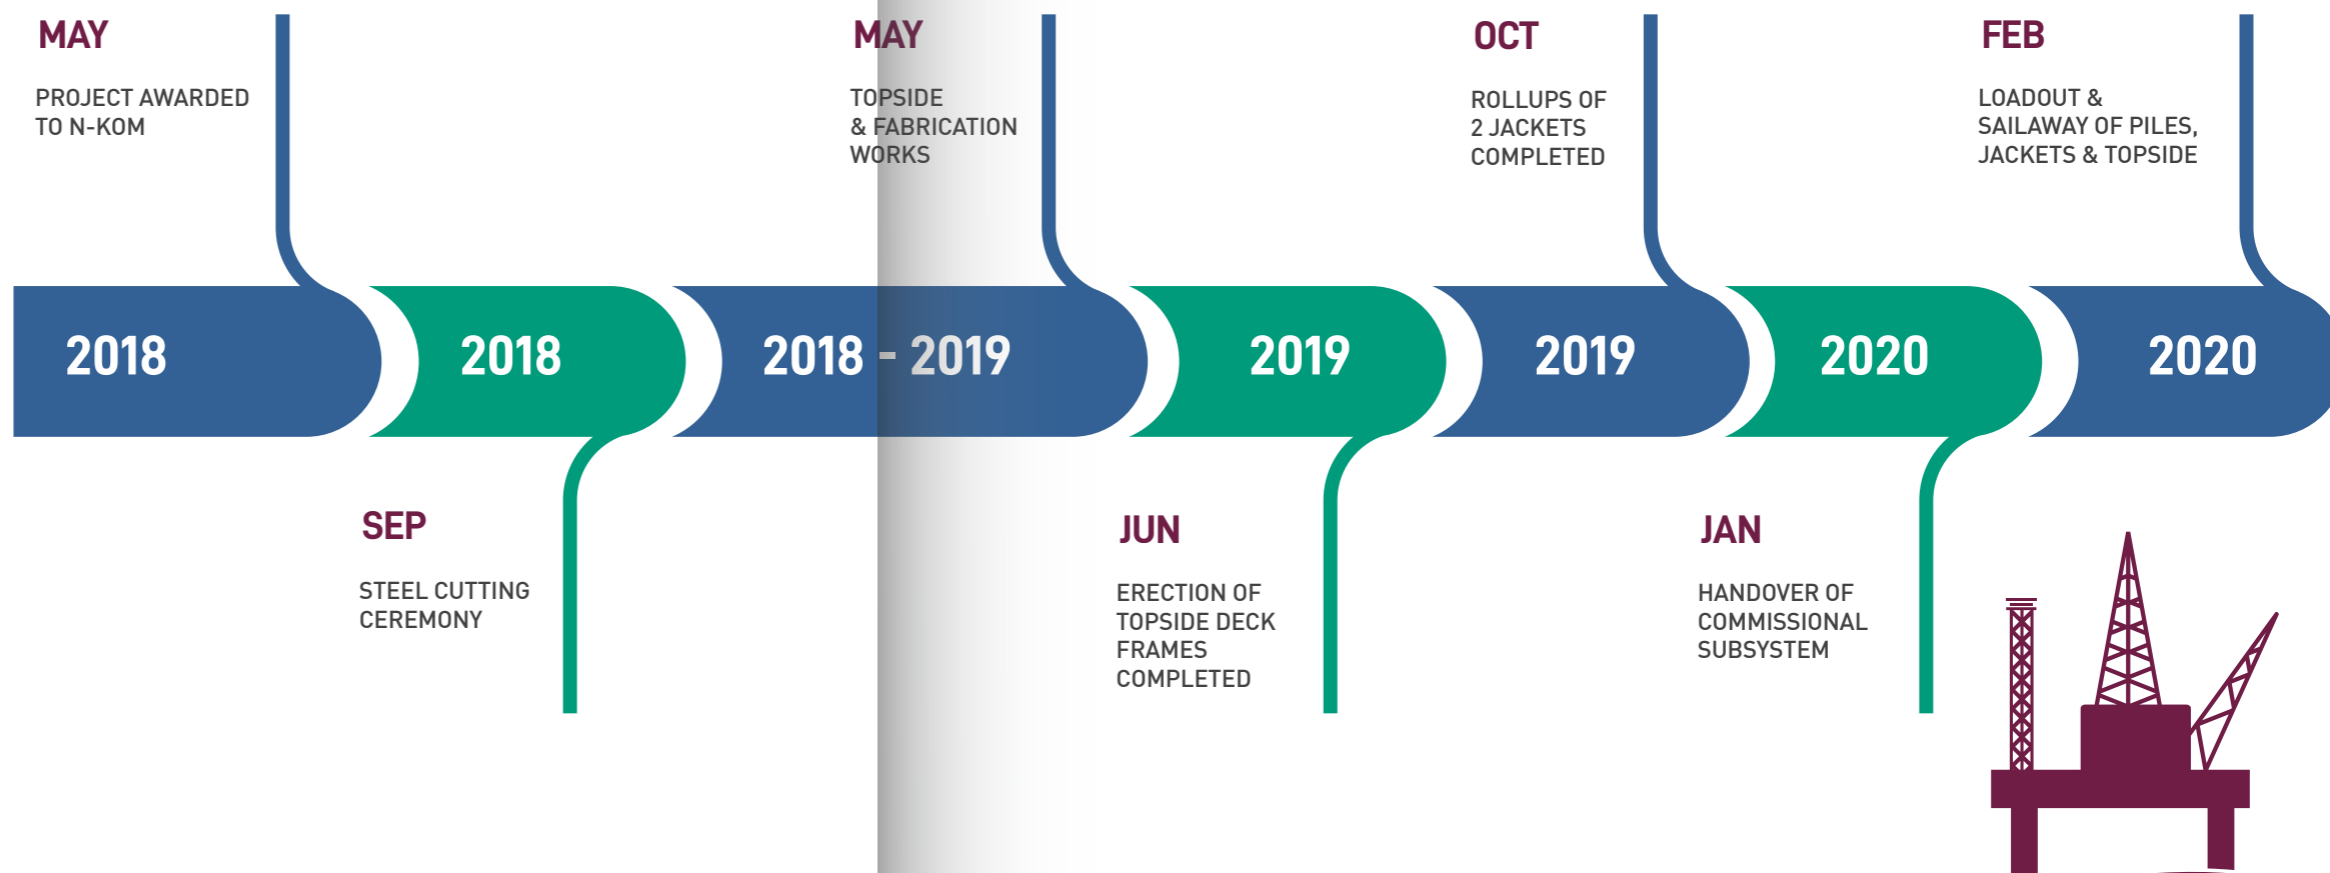

- 90 personnel (45 two-man cabins)
- Amenities (recreation & gym, prayer room, laundry equipments room, medical room, etc)
- Emergency power generation
- Fire detection and protection
- Helipad with associated lighting & telecom systems

Qatargas' Chief Executive Officer, Khalid bin Khalifa Al Thani, said:
 This project is a historic milestone for the State of Qatar as it highlights a new and important capability. It is for the first time that the fabrication of a major offshore structure of this magnitude has been completed in a Qatari yard. This achievement showcases the capabilities, skills and resources which are available locally at the Erhama Bin Jaber Al Jalahma Shipyard for the fabrication of large and complex offshore structures.”

Nakilat's Chief Executive Officer Eng. Abdullah Fadhalah Al Sulaiti, said:
 I would like to congratulate the entire project team for their dedication and commitment that has led to this milestone achievement and extend my appreciation to our long-term standing partner Qatargas for their strong support and trust throughout this period. Moving ahead, we look forward to handle more of such large-scale projects that are made with pride in Qatar, for Qatar.”

CONTINUOUS EXCELLENCE IN SAFETY, HEALTH & ENVIRONMENTAL MANAGEMENT

FIVE-STAR RATING FOR OCCUPATIONAL HEALTH AND SAFETY AUDIT

Nakilat achieved a 'Five-Star' grading third consecutive year, following the Five Star Occupational Health and Safety Audit conducted by the British Safety Council (BSC) in early 2020, demonstrating its commitment towards the continual improvement of its health and safety management systems. Not only is this the highest available rating that can be achieved in the audit, but it is a particularly substantial achievement for Nakilat this year as the audit scope has been expanded to include our fleet operations, Nakilat Shipping Qatar Limited (NSQL).

During the audit, the company underwent a comprehensive, quantified and robust evaluation of its occupational health and safety policies, processes and practices.

This Five Star audit rating will qualify Nakilat to contend for BSC's Sword of Honour Award later this year. For the past two years, the company has received this prestigious safety award which recognizes organizations that have reached the pinnacle of excellence in managing its health, safety and environmental risks.

WE CONGRATULATE EVERYONE FOR THEIR DEDICATION AND COMMITMENT THAT HAS LED TO THIS MILESTONE SAFETY ACHIEVEMENT. LET US CONTINUE WORKING TOGETHER TO BE TRULY INCIDENT AND INJURY FREE (IIF).

ISO/IEC 27001 Certification | Information Security Management System

- Nakilat recertified
- NAC, NSW, and QFAB certified

A recognition of our commitment towards information security maturity and demonstration of compliance according to best practices

ISO 22301 Certification | Business Continuity Management

- Nakilat, NSQL and NAC certified

Reaffirm our commitment to comply with international best practices, providing assurance to our stakeholders that we have the appropriate business continuity arrangements in place in mitigating the effects of any disruptive incidents. This is especially important as we expand our in-house fleet management, safeguarding the safety, reliability, efficiency and continuity of our operations.

HEART HEALTH AWARENESS MONTH

In conjunction with heart health awareness month in February, QFAB organized a 'Heart Health Awareness' workshop for its employees at the Erhama Bin Jaber Al Jalahma Shipyard.

The presentation was delivered by Senior Cardiologist Dr. Bigesh Nair from the Naseem Al Rabeeh Clinic in Doha.

The interactive session not only focused on raising awareness to prevent heart diseases and healthy habits for heart wellness, but also featured a demonstration of how to do CPR and using an Automated External Defibrillator (AED) machine in the event of an emergency.

WORLD SAFETY DAY AT QFAB

A workshop was organized by QFAB for its employees to commemorate World Safety and Health at Work Day. It is celebrated worldwide on 28 April annually with the aim to promote the prevention of occupational accidents and diseases.

The event was organized at the Erhama Bin Jaber Al Jalahma Shipyard to raise awareness for plant and equipment safety at the facility and highlight emerging trends in the field of occupational health and safety. It was a great occasion to reinforce positive safety and health culture amongst the workforce, especially in the midst of the ongoing pandemic.

QATAR'S PRECAUTIONARY MEASURES TO CONTAIN THE PANDEMIC SPREAD

Since the start of the pandemic outbreak, Qatar has taken firm steps to protect the population in response to COVID-19. The government strictly enforces quarantine, various restrictions, policies and laws, to control the spread of the disease in the country.

Mandatory quarantine for infected patients, anyone arriving into Qatar, and their close contacts in designated and isolated accommodations

Temporary suspension of entry into Qatar and extended travel restrictions for all residents

Suspension of in-person attendance at public and private schools and universities

Closing of all social gathering places, including cinemas, theatres, malls, children's play areas, gyms, wedding venues, parks and etc.

Calling upon all residents to avoid crowded places and banning of any social gatherings

Temporary closure of in-person money exchange and transfer service offices, encouraging online transactions

Substantial reduction of workers at offices by allowing work from home

Reinforce social distancing for all residents at all public places

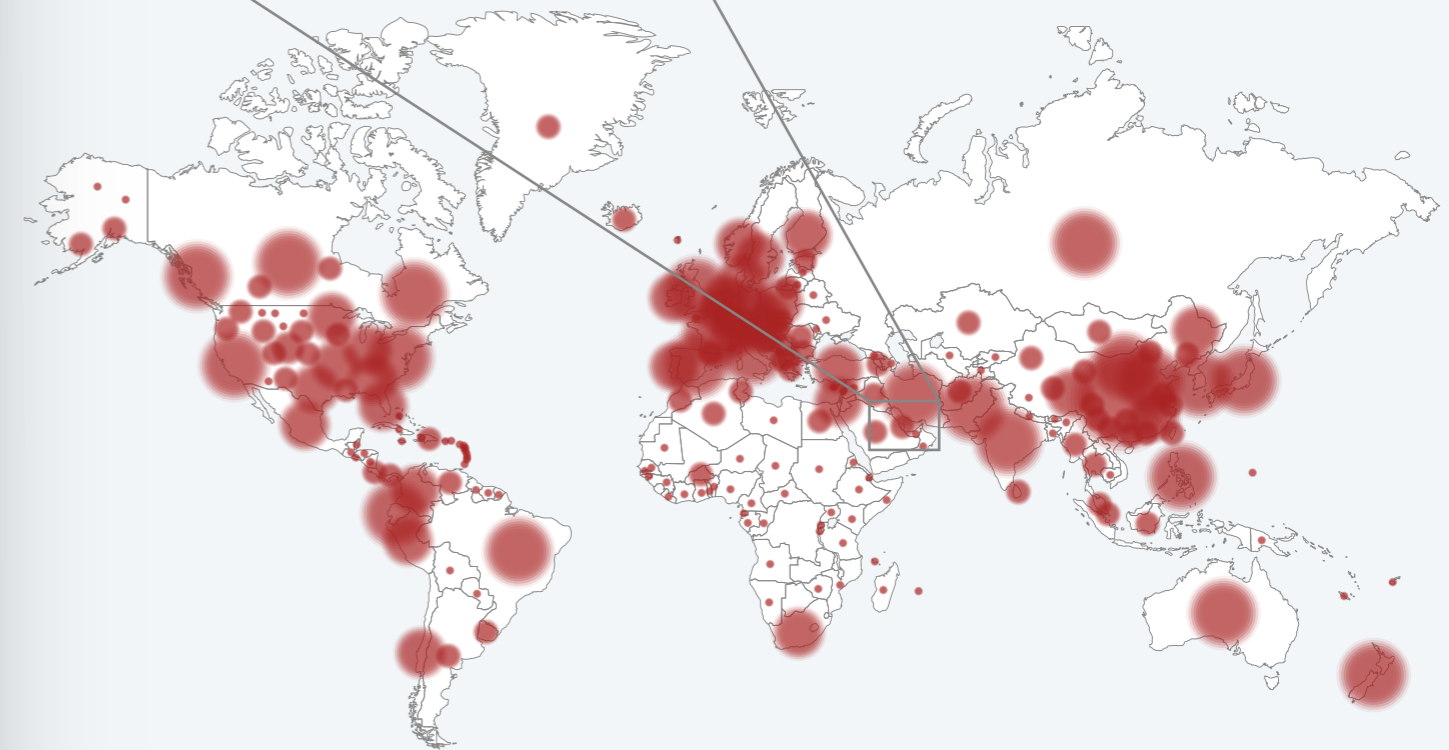

Launching of EHTERAZ, a free to download app providing up-to-date information about COVID19 in Qatar and tracks the health status of each resident

A GLOBAL OUTBREAK & ONGOING PANDEMIC OF CORONAVIRUS DISEASE 2019 (COVID 19)

SAVE LIVES
STAYATHOME

Establishment of Quarantine Hotline to report complains regarding violations of home or hotel quarantine and to report non-compliance

Mandatory face masks upon leaving the house for any reason

NAKILAT STEPS UP COVID-19 PREVENTIVE MEASURES ONSHORE & ONBOARD THE VESSELS

As we navigate through the global COVID-19 pandemic, Nakilat and its joint ventures remains committed to first and foremost ensure the health, safety, and wellbeing of all our people, onshore and onboard the vessels.

Since the onset of the virus outbreak, we have taken immediate measures and proactive steps to minimize the risk of exposure and reduce the risk of transmission to all our employees, contractors and clients, while ensuring no disruption to our daily operations, highlighting our business resilience.

Regular **employee communications** on the latest COVID-19 guidelines and precautionary measures

Temperature screening for all employees, contractors and visitors across all our facilities (HQ, shipyard, employee accommodation, onboard the vessels)

Face-to-face meetings restriction, encouraging employees to conduct virtual online meetings

Personnel **movement restriction** to essential areas only at the shipyard

Regular and thorough disinfection exercise the employees' accommodations, workshops and all around the workplace areas

Provision of **necessary PPEs and adequate supplies of hand sanitizers** are made available at all our working sites

Contact tracing of positive cases and isolation of suspected cases; immediate liaising with Communicable Disease Center (CDC) for conducting COVID 19 tests for all suspected cases

Employee health declaration for all employees and contractors, including pre-embarkation for all seafarers

Activate special work arrangement for employees to work from home

Reinforce social distancing at all times; be it queuing during meal time, boarding transportation, or whilst on the transportation

Mandatory installation of EHTERAZ application on all employees phones to support the country's efforts in combating COVID19

Across all our worksites and onboard our vessels, we have put in place all necessary health and safety precautionary measures as well as additional comprehensive protocols beyond compliance with the authorities, to ensure the wellbeing of our essential frontline employees as they continue to discharge their duties.

GREENING OUR ENVIRONMENT

Supporting Qatar's 'Plant One Million Trees' Campaign

Employees of Nakilat and its joint venture companies joined in a tree-planting activity organized at Al Khor Coastal Road Development Project, along with their families and students from Al Khor Middle School for Boys.

The activity comes as part of the "Qatar Beautification and Our Kids Planting Trees" campaign launched by the Supervisory Committee of Beautification of Roads and Public Places in Qatar, an excellent way to support the Ministry and Ashghal's efforts in creating a safe and healthy environment for citizens and residents in Qatar.

Tree-planting is one of the most common ways to support the global initiative on climate change and create a sustainable environment. In addition to enhancing the aesthetics of the place, trees are vital to improve air quality, cooling the environment by absorbing heat and reducing our carbon footprint. Not only is such environmental protection a key element of our corporate social responsibility, but it also shows the important role everyone has in making the world a greener place to live in.

Rashid Al Marri, Nakilat's Chief Administration Officer (CAO)

"As a responsible corporate citizen, we recognize the importance of operating in a sustainable manner, which means that we have a duty towards protecting the environment we live and work in."

Eng. Yousef Al-Emadi, Ashghal's Director of Projects Affairs

"Ashghal is implementing many initiatives that contributes to achieving sustainability of projects and environmental preservation. These include the implementation of green buildings, recycling of demolition, excavation and car tire wastes and their use in road projects."

CORPORATE WELLNESS ACTIVITIES PROMOTE HEALTHIER LIFESTYLE

When it comes to health and wellness, Nakilat champions a variety of activities to promote a positive attitude towards healthy living and nurturing a strong wellness culture among our employees.

The company plays a significant role as an employer in socially connecting employees through hands-on initiatives not only to promote a healthier lifestyle and physical fitness, but also camaraderie and teamwork among employees.

Celebrating National Sports Day 2020

Nakilat and its joint ventures celebrated Qatar National Sports Day 2020 by organizing a wide range of outdoor sporting activities for employees and their families. held at Al Legtaifiya Park in Doha as well as Laffan Global Village in Ras Laffan Industrial City. Thank you all for your active participation!

CELEBRATING WOMEN IN THE MARITIME INDUSTRY

Nakilat commemorated International Women's Day (IWD) to recognize the valuable contributions of its female workforce. Held on 8th April each year, IWD is an annual event celebrating women and their achievements across the world. Over the years, Qatar has been progressively empowering women across different spectrums of life, supporting their active engagement, economically, politically and socially.

IN HONOR OF INTERNATIONAL WOMEN'S DAY, NAKILAT AND JVS WOULD LIKE TO CELEBRATE AND THANK OUR FEMALE WORKFORCE FOR THEIR CONTINUOUS EFFORTS. #EACHFOREQUAL

WORKING FROM HOME PREPAREDNESS

Nakilat conducted several sessions to familiarize employees with all the necessary digital platforms prior to activating work from home. This ensured that the company would not face any business disruption while continuing to run its operations and safely deliver clean energy to the world.

Work from home in action!

FEATURE INTERVIEW

IMRAN KHAN
PROJECT MANAGER, N-KOM

The team caught up with Imran Khan, whose accomplishments include the successful milestone project delivery for Qatargas' North Field Bravo (NFB) project. As one of the company's pioneers, Imran first joined when it started operations almost a decade ago in 2011. We find out more about what attracted him to this field and his experience working at the Erhama Bin Jaber Al Jalahma Shipyard.

1. Have you always been interested in marine engineering?

Having grown up in India, most parents expect their sons to venture into medicine or engineering. Luckily for me, I had a genuine passion and interest for Science since I was little. From a young age, I was always intrigued by mechanical processes and awed by the works of mega machineries. It was from there that I began developing curiosity and interest in oil and gas extraction and exploration processes.

The complexity of these engineered structures is amazing to me, so I believe that's how I found my true calling in engineering. This profound fascination led me to graduate with a bachelor's degree in Mechanical Engineering from Mumbai University, and I later pursued and obtained an Executive Master of Administration Degree with a focus on Projects & Operations Management from the University of Petroleum & Energy Studies.

2. How did you launch your engineering career?

My career introduction to the maritime industry began when I joined a naval architectural and ship design consultancy firm, Cybermarine Knowledge System Pvt. Ltd. It was a brief stint of one year, before I moved on to work for Keppel FELS engineering office in Mumbai/Singapore.

At Keppel FELS, I gained the relevant engineering experiences as I had the opportunity to get involved in major oil and gas heavy engineering projects such as newbuilding of jack up rigs, semi-submersible units and major Floating Production Storage and Offloading (FPSO) conversion projects.

In 2011, I joined Nakilat-Keppel Offshore & Marine (N-KOM) as a structural engineer. It has been a very memorable journey to grow with the company since then.

3. How has your experience been while working with N-KOM?

I was amongst the pioneers in the company when I first joined, as the Erhama bin Jaber Al Jalahma Shipyard was just inaugurated the year prior. I am so grateful to get a chance to work with prestigious companies such as Keppel and Nakilat, since I have always been passionate about oil and gas industry since the early days of my studies.

Starting operations almost from scratch presented various thrilling challenges, and I had the opportunity to be involved in multiple projects from the onset. Starting out as a Structural Engineer, I was able to broaden and diversify my experience holding in various positions in the Engineering and Operations department throughout the years. Among the highlights of my career at N-KOM is being awarded the "Quality Ambassador" award in 2014. Being with the company for almost a decade since it began operations, I am proud to have been part of numerous marine and offshore projects at N-KOM and am deeply committed and dedicated towards the company's success. Being part of a great company and having a strong leadership team provides a profound sense of pride and achievement in my professional career.

4. What are your main priorities when working on a project?

Undoubtedly, this has to be the safety of my team. Working at a shipyard means 24/7 operations. As a Project Manager, I have a responsibility to ensure that my team executes their tasks safely. At the end of the day, no matter the scale of the project, the ultimate priority is ensuring everyone goes back home safely to their families. This is one of the main factors determining the success of any project.

A typical large scale, complex projects revolves around an extremely tight schedule. It is crucial to keep the team motivated, engaged and committed to ensure they perform well, especially when accommodating changes to the project scope. Regular communication is important to balance the expectation of your team while ensuring customer satisfaction.

In this regard, I have been very fortunate to have worked with alongside outstanding project team members at N-KOM. I strive to provide support and motivate my team to deliver the best results, make them feel empowered and rally together to overcome any challenges that we might face together as one. I believe that among the most crucial role I have as a Project Manager is maintaining overall visibility in order to deliver the project successfully.

4. Which project is the most memorable to you?

Leading the mega-scale fabrication of the Offshore Living Quarters for Qatargas' landmark North Field Bravo (NFB) offshore field is one of the most defining moments in my entire career. Working in close collaboration with Rosetti Marino and Qatargas teams was a great privilege and learning curve for myself personally, one I'll never forget.

The highly complex project, the largest topside of its kind 100% proudly built in Qatar, is very special and gives a sense of pride for everyone at N-KOM as the success delivery demonstrates our capability and capacity in large-scale, complex offshore projects that can be done locally in Qatar.

"I ALWAYS BELIEVE THAT IF YOU WANT TO SEE "CHANGE", THEN YOU HAVE TO BE PART OF THAT CHANGE AT EVERY LEVEL AND TAKE INITIATIVE TO DRIVE THE CHANGE. I WOULD LIKE TO THANK ALL MY MENTORS FOR THEIR GREAT SUPPORT AND FOR CONSTANTLY CHALLENGING ME TO STEP OUT OF MY COMFORT ZONE!"

Imran Khan
N-KOM Project Manager

DAY OF THE SEAFARERS

DAY OF THE SEAFARER
—25 JUNE—

SEAFARERS

#SeafarersAreKeyWorkers

In conjunction with the 2020 Day of the Seafarer, we pay tribute to all our seafarers, acknowledging their challenges and sacrifice during this global health crisis affecting everyone. Our seafarers are on the frontline of our operations, playing the essential role in delivering and maintaining the flow of energy to continue powering the world.

You are not alone. You are not forgotten.
Thank you from all of us!
